

VESDA-E VEP 4 pipe with LEDs, esserbus

Features:

- max. 30 pipe holes for class A
- max. 40 pipe holes for class B
- max. 45 pipe holes for class C

Part-No.: VEP-A00-P-EBTI

As VEP-A00-P but with an integrated esserbus® transponder for direct integration into the esserbus® loop

Operating voltage	18 ... 28 V DC
Quiescent current @ 24 V DC	approx. 380 mA
Alarm current @ 24 V DC	approx. 492 mA (at 4 transponder groups)
Contact load relay	(at 4 transponder groups)
Sensitivity	0.001% - 20% obs/m
Connection terminal	0.2 - 2.5 mm ²
Maximum tube length	560 m branched, 280 m single pipe
Area to be monitored	1600 m ² (2000 m ²)
Type of protection	IP 40
Weight	approx. 4,47 kg
Dimensions	W: 350 mm H: 225 mm D: 135 mm
Approval	0786 - CPR - 2170
