

VESDA-E EBTi

Features:

- max. 40 pipe holes for class A
- max. 80 pipe holes for class B
- max. 100 pipe holes for class C

Part-No.: VEP-A10-P-EBTi

Approval: VESDA-E VEP 4 pipe with 3.5" Display, esserbus

As VEP-A10-P but with an integrated esserbus® transponder for direct integration into the esserbus® loop

Operating voltage	18 ... 28 V DC
Alarm current @ 24 V DC	approx. 570 mA (at 4 transponder groups)
Contact load relay	2 A @ 30 V DC NO/NC
Sensitivity	0.005% - 20% obs/m
Connection terminal	0.2 - 2.5 mm²
Maximum tube length	560 m branched, 280 m single pipe
Area to be monitored	1600 m² (2000 m²)
Type of protection	IP 40
Weight	approx. 4,57 kg
Dimensions	W: 350 mm H: 225 mm D: 135 mm
Approval	0786 - CPR - 2170
