

Honeywell

E080-10

E080-10

Galaxy Dimension IP Module, supports ISOM protocol, replacement of E080-08

Basic parameters	
Module type	Ethernet communicator
Manufacturing	PCB
Power supply	12 - 15 V DC
Consumption - in rest state	110 mA
Consumption - max.	135 mA
Compatibility	Galaxy GD, Galaxy Flex v.3
Connection	line 1 RS-485
Indication of communication with control panel	yes, LED diod
Protocol	TCP
Connector	RJ-45
Communication speed	100Base-T / 10Base-T
DHCP support	no
Number of phone IP addresses for 24-hour service	2
Configurable IP port for 24-hour service	yes
Heartbeat	yes
Network detection	yes
Transmission way test	yes
Encrypting of transmitting data	yes (128 bit)
Environment class	II - general indoor
Protocol	TCP, UDP, ISOM
Weight	60 g
Dimensions	
Dimension - heigth	67 mm
Dimension - width	79 mm
Dimension - depth	16 mm
